

Help For Prescriptions For CFIDS Sufferers

By Gail Kansky

The National CFIDS Foundation had an offer from a man who knows firsthand what it is like to have a loved one suffer from a chronic illness. His 19 year old daughter died of leukemia last year. In her memory, a new program has been established to give you your prescription drugs at his own cost paying only for shipping, handling, and UPS delivery.

Although drug companies have plans that give access to drugs to destitute individuals, many do not qualify who still have difficulty paying for their prescription drugs. You need only a licensed physician's prescription to qualify for this program. You may fax or send your prescription to this California company and your prescription will be mailed to you via UPS.

No personal checks are accepted. Money orders or credit cards may be used. This offer has been made to other organizations such as the National Cancer Society, but The National CFIDS Foundation is the first one to utilize this wonderful gesture and put out the information for patients. It will be announced, as well, in the summer issue of The National Forum. You need only to be a patient to qualify for this program.
