PREPARING YOUR PET FOR THE BIG ONE

The "Big One" is coming. As residents of Northern California, we know it's coming and we know we should be prepared. But, did you know the "Big One" could be a big quake, big fire, or big flood? And, how prepared are you, really? Below are some helpful hints to help prepare you and your pet for a disaster.

✓IDENTIFICATION. Your pet should wear a collar and identification tag (rabies tag, San Mateo County dog or cat license, personal I.D. tag). Make sure all information on the tag is current.

✓ VACCINATIONS. Your pet needs to be current on his/her vaccinations. Keep medical records in a safe place. You may be required to show proof of current vaccinations if you are forced to temporarily board your pet.

✓ TRANSPORTATION. Each pet in your household should have his/her own pet carrier. A carrier makes transportation easy in the event of an evacuation and keeps your pet safe from falling debris. Make sure the carrier is large enough for your pet to sit down, lay down, stand up, and turn around. It is important to familiarize your pet with his/her carrier before disaster strikes.

✓ LEASHES. Make sure you have a leash handy for every dog in your house. Slip leads can double as a collar and leash in an extreme emergency.

✓SLEEPING QUARTERS. Do not put your pet's bed near a window or under shelving. Windows can shatter during a quake showering your pet with glass. Shelving can collapse tossing books and other heavy objects down onto your pet.

✓ CHECK YOUR YARD. Make sure all fencing is sturdy and secure. Also look for holes and other possible escape routes.

✓ PLAN AHEAD. Human shelters may not welcome your pet. Make pre-disaster plans for post-disaster, temporary placement of your pet. Identify local boarding kennels, veterinarians with boarding facilities, motels that accept pets and/or make arrangements with friends or relatives.

PREPARING YOUR PET: PART TWO

✓ DISASTER PREPAREDNESS KIT.

You	a can buy a kit at the store or ma	ake your own. Your kit might include the foll	owing:	
	A pet first-aid book. A pet first-aid kit containing:

Wi	HAT TO DO IF YOU'VE LO	OST YOUR PET!		
	Create a flyer with your pet's please the flyer in supermarkets, shelters, and emergency veteristops. Leave flyers with all you visit your local animal shelter inform your mail carrier, neighborarier of your lost pet. Check "Found Animal" ads in mairing lost pet announcements. If you've lost a purebred dog or breeder. Make sure all current/correct in other traceable identification. I Check your neighborhood, or the	neck "Found Animal" ads in newspapers. Place a "Lost Animal" ad. Contact radio stations abouting lost pet announcements. you've lost a purebred dog or cat, contact the rescue club for your breed. Also contact your eeder. ake sure all current/correct information is on file for license tags, traceable rabies tags, and any her traceable identification. If the information is not correct, change it with the proper agency. neck your neighborhood, or the area in which your animal was lost. Walk slowly and call his/hei		
<u> </u>	name. As you walk, occasionally jiggle a box of dry pet food or leave an article of your clothing in the area and check back at night. Your pet may be scared and only come out when it is quiet. Juneutered males will often travel farther than neutered ones. Expand your search accordingly. Rent or buy a humane box trap and try to catch your pet using this method. When you do find your pet, immediately examine him/her for illness or injuries. Use caution, panicky or injured animals may bite.			

REMEMBER, IF YOU DON'T FIND YOUR PET RIGHT AWAY, <u>DON'T GIVE UP HOPE</u>.
IT'S NOT UNCOMMON FOR PEOPLE TO BE REUNITED WITH THEIR PETS
WEEKS, OR EVEN MONTHS, AFTER THEY ARE LOST.
